BMI Data Entry – page 7

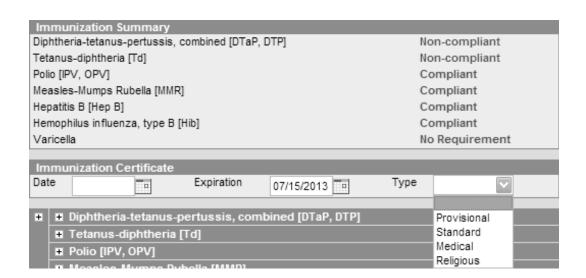

Individual Immunization Vaccine Data

All Kentucky schools complete an immunization survey each year to their local health departments and the Kentucky Department of Public Health (KRS 158.037 and 902 KAR 2:055). Schools may use the expandable immunization boxes to enter the dates the immunizations were administered to student. This data will not be collected by KDE, but will be useful to districts in completing the immunization survey from the Department for Public Health.

To assist with completing this survey, enter the data for the immunizations listed below.

Immunization requirements for the 2013-2014 school year include:

- DTAP Tdap, DT, Td
- IPV (Polio)
- MMR
- Hib
- Hepatitis B
- Varicella
- Meningococcal
- Pneumococcal Conjugate Vaccine (PCV)

Entering Immunization Dates

To ensure accuracy of compliance reports for the KY Department for Public Health, schools may use the expandable immunization boxes to enter the dates the immunizations were administered to student.

Note: All combination shots should be entered separately for each required immunization. For example, Pediatrix is a combination shot containing DTaP, Hep B and Polio. If Pediatrix is given, dates should be separately entered for each of three required immunizations.

Steps to enter immunization information:

- 1. Open the section for the immunization by clicking the plus sign in front of the immunization if the shot fields are not visible.
- 2. Enter the dates the student received their shots in the Shots fields. These dates can be entered in MM/DD/YYYY or MMDDYY format.
- 3. When finished entering shot dates, click Save at the top of the tab. This will refresh the Immunization Summary and indicate if the student is compliant or not based upon the logic loaded in Campus.

Diptheria, Tetanus, Pertussis (DT, DTaP, DTP)

□ Diphtheria-tetanus-pertussis, combined [DTaP, DTP]		
Shots		
Waiver	<u> </u>

- Hx/Dis Select if student has had the chicken pox No Vaccine Required (Note, per 2012 changes to 902 KAR 2:060, Immunization Schedule, students must have medical provider's documentation of having had chicken pox to waive vaccine)

BMI Data Entry

Body Mass Index data is not a required data entry (702 KAR 1:160). However, some school districts may wish to enter BMI data as part of their district's wellness program.

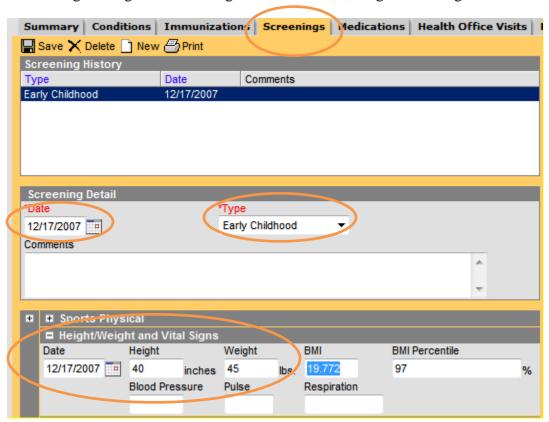

To enter BMI data:

Select Screening Tab

On Screening Detail: Enter Date of screening and Appropriate Type

(Early Childhood, Child & Teen Check-up or Health Appraisal)

Select Height/Weight and Vital Signs and enter Date, Height and Weight.

BMI and BMI Percentile will automatically calculate when height and weight are entered.
